PROFESSIONAL EXPERIENCE

Customer Service Assitant/ Step Up Shift Manager
ONE-STOP STORES LTD
2013-2020

I started working at one-stop when I started 6th form in 2013. Working here definitely helped me with my confidence and I got my first taste of working in a team in a working environment. After a few years of working here, I was trusted to do shift manager shifts which taught me how to lead for the first time. I took time away from one-stop when I joined the marines but came back after when I started studying at Mayden Academy.

Royal Marine Recruit
ROYAL MARINES   2019-2020

For my short time in the marines as a recruit, I learned not to take the small things for granted. They bred into me the skills I needed to look after myself as well as understanding how far I can push my body and mind. They taught me to never give up no matter how hard it gets. It was a state of mind, and it bettered me in every way.

EDUCATION

FULL STACK TRACK
MAYDEN ACADEMY

2020-2020

BTEC ICT (Distinction *)
THE CLARENDON ACADEMY   2013-2016

CERTIFIED SCRUM MASTER
SCRUM ALLIANCE   2020-2020

PROJECTS

JAVASCRIPT NUMBERS GAME
https://dev.maydenacademy.co.uk/projects/2020Feb/2020-feb-numberGame/
https://github.com/Mayden-Academy/2020-feb-numberGame

As a team of 8, we built a game where you test your hand-eye coordination. We did this by randomly generating numbers on a page where you have to click them in ascending order when they appear with a time limit of 30 seconds. Throughout the game the rounds get harder, adding more numbers and negative numbers.

PHP PROPERTY LISTING SITE
https://github.com/Mayden-Academy/2020-feb-numberGame

Using PHP, we built a property listing site where you can view houses for sale or rent, by clicking on the property you can view more details. We built this from the ground up, using PHP and MySQL in OOP and following the SOLID principals, as well as HTML & CSS on the front-end.
